

NO CHILDREN UNDER THE AGE OF 12

We love children! However choosing your bridal gown is one of the most important things you will do for your wedding. A bridal shop is a dangerous place for small children, as racks, loose beads and pins pose a hazard to them.

They also get bored very easily and may become a distraction to our other clients and to your ultimate goal: finding the perfect gown. Thank you for understanding and for helping us make everyone's dream wedding vision become reality.
